

EBTC is a EU cooperation platform to expand EU–India clean-tech partnerships: business & research collaboration, regulations, market trends and technologies

www.ebtc.eu

For example, working with EU Member States Clean-tech associations and Chambers of Commerce, EU Agencies, EU Sectoral Associations (the European Renewable Energy Council, etc)

- Offers an overview of the current situation of Renewable Energy in Europe
- Examines the latest developments from a technological, financial and economical perspective
- Gives an outline of the possible renewable energy market trends
- It encompasses all the main technologies on Renewable Energy for Power, Electricity, Heating and Cooling and Biofuels, by covering benefits and applications; costs and prices; markets and installed capacity; policy instruments; key countries and success stories; and targets and long term potential.
